

Safe & Clean Workspace

Beambox meets the Class 1 laser standard and is safe under all conditions of normal use. Integrated ventilation device prevents the materials from catching fire and extracts smoke and fumes

Intuitive and Ready to Use

Control and monitor your Beambox at your fingertips with the touch panel. Use the built-in camera to align your design. Compact water cooling system takes simplicity to a whole new level.

Friendly Software For All

Compatible with Windows, macOS & Linux, its intuitive user interface allows you to easily access all features of Beambox, enables multi-computer control and supports JPG / PNG / SVG / DXF files.
